

COVID-19 RELATED SERVICES

The COVID-19 pandemic has affected many aspects of all our lives and continued efforts need to be made to provide a healthy work environment so we can all resume our business activities. At Dillon Supply, we strive to assist our customers in those efforts by not only offering a wide array of COVID-19 related products, but also offering services to help you achieve/maintain a safe workplace.

OUR SERVICES

RESPIRATOR MEDICAL CLEARANCE

- Provide online medical questionnaires for clearance to wear a respirator.
- An occupational health physician reviews the form with quick turnaround service.

RESPIRATOR FIT TESTING

- We have safety trained professionals to provide on-site qualitative fit testing and partner with industrial hygienists to provide quantitative fit testing in accordance with the OSHA Respiratory Standard.

MEDICAL SCREENINGS FOR WORKPLACE ENTRY

- We have hand held non-contact infrared thermometers as well as body temperature scanners so you can perform your own testing. We also can provide trained professionals to assist with screenings for workplace entry.

PPE ASSESSMENTS

- We have safety specialists available to provide on-site hazard assessments to determine specific PPE needs of your workers. We can also evaluate your current PPE used for potential cost savings, worker comfort and product longevity.

OUR SERVICES (CONT'D.)

CLEANING AND DISINFECTION VERIFICATION

- Industrial Hygienists can provide on-site assessments, surface sampling and on-site analysis to verify the effectiveness of cleaning and disinfecting procedures on surfaces within facilities. We also offer a wide variety of disinfectants and sprayers.

VIRTUAL TRAINING COURSES

- Online courses are available for a variety of subjects including; respirator protection, general safety, electrical safety, asbestos, lead-paint and mold.

INFECTION CONTROL POLICIES

- We can provide guidance for the development of infection control policies/procedures to minimize potential for employee exposure to COVID-19 and other pathogens.

Dillon also provides a variety of other safety related services.
