

# BATTERY-POWERED ELECTROSTATIC SPRAYER

## FEATURES

- No-contact disinfection
- Portable, cordless
- 4.22 Gallon tank
- 2 hours of runtime per full charge

## PRODUCT CONTENTS

Cordless sprayer, lithium-ion battery, wall charger, nozzle adjuster, tank with lid

## INTENDED USE

No-contact disinfection solution for hard-to-reach surfaces in work sites, offices, warehouses, medical and healthcare facilities, gyms and more. This device sprays a mist consisting of a sanitizing agent of your choice, which applies an even coating on surfaces and equipment.

## INSTRUCTIONS FOR USE

This device turns a liquid solution into a mist as the mixture is released into the area. For best results, a 6.5' spraying distance between the sprayer and the target surface should be observed during application.

## TECHNICAL DATA

Weight	10lbs
Battery Type & Voltage	12V DC Lithium-Ion Battery
Runtime	2 hours per full charge
Charger Voltage	110V, 50/60Hz
Flow	100 cubic meters/min
Tank Size	4.22 Gallon
Droplet Size	5 - 40mm
Spraying Distance	6.5'
Working Pressure	0.15 - 0.4 Mpa
Dimensions	14.96"W x 7.48"D x 21.25"H
